AUCTION & PURCHASE ITEMS TERMS & CONDITIONS

The Western Hunting & Conservation Expo (WHCE) is organized to benefit wildlife conservation in conjunction with the Mule Deer Foundation (MDF) and Sportsmen for Fish & Wildlife (SFW) by generating funds through the auction of items donated by individuals and companies. SFW and MDF are non-profit charitable organizations organized under section 501(c)(3) of the internal revenue service code.

1. Auction Bidders

Any bid made at a WHCE Auction, whether in person at a live auction, by telephone, or at a silent auction, constitutes an unconditional offer to buy the item in question at the price bid. A person who bids on behalf of another person or group will be ultimately held responsible for payment in its entirety, though such person may seek restitution of such from third parties.

2. Winning Bids

Unless a higher and subsequent bid is made, your bid creates a binding contract of purchase and obligates you to sign the Auction Receipt. In the case of a telephone bid, authorizes your authorized representative who made the bid to sign on your behalf. In the event that the successful bid was made by telephone, the bid price must be received by either MDF or SFW, whoever offered the item for auction, before the close of the fifth business day after the close of the auction.

3. All Sales Final

The auctioneer has the final authority on the amount paid for an item and/or the identity of the purchaser of the item. Auctioneers and spotters will make every attempt to acknowledge all desired bids, but WHCE, SFW and MDF are not responsible for any missed bids or bids that fail to be executed.

4. Auction Receipt

The Auction Receipt will be brought to you or your representative for signature immediately after your winning bid. A binding contract is formed by your bid and formalized by signing of the Auction Receipt. This binding contract requires that the bid amount be paid prior to the close of the auction. Participation in the auction and/or signature on the Auction Receipt, Silent Auction Bid Sheet or other Bid Form guarantees that the purchaser has read and understands these Auction Terms and Conditions and that the purchaser agrees to be legally bound by all terms, conditions, rules and regulations in relation to the auction and the auction item.

5. Full Responsibility of Purchaser

It is the Purchaser's Responsibility to Contact the Donor no later than 30 days after the auction Regarding Purchased Items, Services or Hunts to discuss the scheduling of their hunt or fishing trips. Dates and times for applicable items are to be used when indicated. In the absence of designated dates and times, the same are to be arranged at the mutual convenience of the donor and winning bidder/purchaser. It is the responsibility of the successful bidder, in a proper and timely manner, to apply and pay for all required tags and licenses on any hunting or fishing trip auctioned. WHCE, SFW and MDF is not, and will not act as, a conduit or go between with respect to the purchaser and donor.

6. Purchaser Failures to Comply

Any failure of compliance with the provision above may result in additional costs incurred due to non-compliance and will be the responsibility of the purchaser.

7. No Warranties or Guarantee on Goods

All goods in the live and silent auctions and fund-raising areas have been acquired or obtained from third parties. The purchaser acknowledges that the goods have not been inspected by WHCE and it is advised in the case of Jewelry, firearms, knives, bullets, and/or other weapons to obtain a competent inspection and test of the goods before use. The goods sold in both the live and silent auctions are sold "As Is" with all faults and defects, and without any express or implied warranty on the part of WHCE, MDF or SFW. WHCE, MDF and SFW do not accept any liability or responsibility for any product, design or use. Any written warranties on the goods delivered to the high bidder are those solely of the manufacturer, and /or their agents, and shall be the sole liability and responsibility of the manufacturer.

8. No Warranties or Guarantees on Services

All services, hunts or otherwise, in the live and silent auctions and fund-raising areas have been acquired for and are to be furnished by third parties and contain the same reservation set forth under "goods" outlined above. No services in the live auction are to be or will be performed by WHCE, MDF or SFW. WHCE, MDF and SFW shall bear no responsibilities for the delivery or quality of any of the services, or for any loss or damages arising from or related to or connected with the performance or non-performance of such services.

9. Hold Harmless

There will be no exchanges or refunds in any item. Although WHCE, SFW and MDF have made every effort to ensure the quality of donated hunts and trips, WHCE, SFW and MDF cannot and does not guarantee the satisfaction of either the donor or the purchaser. Purchaser agrees to hold WHCE, SFW and MDF harmless regarding any dissatisfaction or failures by donor to fulfill purchases.

WHCE reserves the right to add items to the auctions as additional donations become available.

LIVE AUCTION PAYMENT SCHEDULES

All auction items must be paid for by the close of the event where purchased. Payments will be taken at the Auction Payment Table during the Friday Day Auction, Friday Night Banquet, Friday Ladies Lunch and Auction and Saturday Night Banquet. Payments can be made by cash, check, Visa, MasterCard, Discover and American Express. Arrangements for item pick-up can be made at the time of payment. Asian Mountain Outfitters offers an unique and adventurous mountain hunting experience in Kyrgyzstan, for one of the most incredible mountain sheep in the world, the majestic Marco Polo. This is the Hume Argali, a subspecies of Marco Polo sheep. The hunt date will be Oct. or Nov. 2018 or January 2019. The hunt is approximately an 8-9 day trip, plus travel. The hunt is conducted on horseback and on foot at elevations of 10,000-13,000 feet. This is not a North American hunt and hunters need to be prepared for cultural/language differences, long range and sometimes quick shooting (proficient at 500+ yards).

The climates are similar to the high & dry areas of CO, NM, and NV. All Kyrgyzstan hunting licenses and fees are included; however camp staff tips are additional. Most of the hunting areas have a heated house or cabin and if spiking out, the hunter will backpack style tents. A Mid-Asian Ibex can be added to this hunt for an additional \$5,000. Typical sizes for Marco Polo Rams are 44"-52" and Ibex range from 37"-45". If it is your first trip to Central Asia, we can arrange a Western/English speaking guide to accompany you (price is \$5,000 USD plus all of their travel and trip expenses). He has many areas of artistic interests, but wildlife is his most intense focus. He has painted African, European, and Asian wildlife, but has focused in recent years on North American and African wildlife.

Tom’s artistic objective is to capture reality without idealizing it, to recreate the drama in wildlife without fictionalizing it. His work continues to grow in richness, composition, and refined detail.

Artist Statement:

I'm proud to support the goal of the Mule Deer Foundation which is to ensure the conservation of deer and their habitat. Growing up in the mountains of Utah, I've always been fascinated by deer and have spent a lot of time tracking, hunting, and photographing them. For the past few years, I've been able to help the Mule Deer Foundation supply winter feed for the deer on the ranch I work for. There is a lot of winter kill due to high levels of snow, and small amounts of food.

My drawing, “Down from the High Country,” represents the deer coming down during the rut to their winter range in the lower country. This specific buck that I drew spent many winters on the ranch. Although many hunted him, he continued to elude hunters and predators each year. I was always excited to see that he survived another year and was fortunate enough to find his shed antlers two separate years. I spent many hours on the detail in the sage brush and on the deer, and chose to use graphite pencils because of the deep blacks I can use to emphasize those details. I want the deer to appear as realistic as possible, so I spend a lot of time studying them to ensure I get the anatomy accurate. Just as a side note, my wife wanted to me title this one “Sagebrush Romance.”

Bringing awareness to protecting wildlife and their habitat is an important and worthwhile project. I hope you enjoy this piece, which is the first of a series I will be drawing for the Mule Deer Foundation.

About Artist:

Seth Hadlock was born and raised in Liberty, Utah and has spent his life working with animals and exploring the mountains. Seth, along with his wife and two kids, works on a cattle ranch with his granddad, raises horses and beef and corriente cows with his dad, is a horse trainer, and competes as a steer wrestler in the Professional Rodeo Cowboy Association.

Seth grew up watching his mother paint horses and became interested in art at a young age. He earned his Bachelor of Fine Arts degree from Weber State University in Ogden, Utah. His favorite medium is graphite and charcoal because it gives his art an older, antique look and he can capture small details, like a horse's eyes or the stitching of a bridle. He focuses his art on realism and accurate detail.

Seth spends his free time helping his kids learn to work with horses and compete in youth rodeo, creating art, and serving on the Wilderness Circuit Finals Rodeo committee. You can see more of his work on sethhadlockart.com or @SethHadlockArt on Facebook and Instagram.

His – Mark V Deluxe .300 WBY Mag.

I am like a thoroughbred race horse – the picture of class, refinement and superb breeding. But you drop that pin on the starting gate and I'll unleash the power and speed that make me unbeatable. Before composite stocks and brushed stainless steel barrels, every Weatherby that fell into the hands of lucky hunters was rich walnut and blue steel. I pay homage to those days of traditional craftsmanship for hunters who still marvel at classic styling. I come complete with regal diamond-point checkering, a rosewood forend and grip cap, maple spacers and a Pachmayr Decelerator recoil pad. If that doesn't speak volumes, then my legendary Mark V action and "Bo-whoop" magnum report says the rest.

Hers - NEW for 2018 Mark V Camilla .240 WBY Mag.

I was named after my Mother, Camilla Weatherby. Together with her husband and my Dad Roy, they gave me my Mark V DNA that delivers legendary performance for women who hunt. You could say I have an older sister by the same name: Vanguard Camilla. She was introduced to the delight of female hunters last year. For 2018 and beyond, Weatherby created me to join her. We both share the same specially-designed stock geometry made to fit a woman's form. The biggest difference is my classic 6-lug Mark V action, AA-grade Claro Walnut stock and hand-lapped barrel. Yes, I'm feminine, but I pack a big punch.

Tavis Molnar • (867) 633-4934 • info@articred-nwt.com • Booth # 1804

Top of the World, untouched wilderness!

This exciting backpack hunt, for 1 hunter, will take place in the Northern Mackenzie Mountains, some of the most remote & wild high country in NWT, which has rarely been hunted, but has traditionally produced exceptional trophies of all three species. The 2017 sheep season was an exceptional year, and the average age of rams taken was just under 11 years and 39 inches. We took several exceptional moose in 2017, and the rut kicked in as usual, providing some great action. Our exclusive, 10,000 square mile hunting area is one of the most remote hunting destinations left in North America and contains no roads or trails, and is completely undisturbed by development. Hunter is responsible for all hunting licenses, trophy fees and taxes. Bush flying from Norman Wells to the base camp and return is not included. See outfitters current 2018 price list for additional costs and species available.
