# WELCOME SPORTSMEN AND SPORTSWOMEN!

Welcome to the 17th Annual Western Hunting & Conservation Expo!

The Mule Deer Foundation (MDF) and Sportsmen for Fish & Wildlife (SFW) are thrilled to have you join us for another exciting Expo! This year's Expo is larger than ever, as we have grown the show to the full footprint of the Salt Palace Convention Center. What has not changed is the opportunity for you to be a part of the conservation of our wildlife, the places we love to hunt, and the future of our hunting and sporting lifestyle. Thank you for joining us.

Without doubt, the Expo has become the "must attend" hunting and conservation event of the year. Make sure to visit the show floor during the four days of the event and support the vendors that are here supporting conservation. This year, we are featuring 525 exhibitors offering the industry's best guides, outfitters, professional hunters, artists, taxidermists, jewelers, furriers and purveyors of custom firearms, knives, optics, clothing and sporting gear.

Once again, our daily events and evening banquets will not disappoint. We have a great lineup of auction items as well as entertainment. Thursday Night Super Banquet kicks things off with a fundraising banquet atmosphere of fun, games, and live entertainment by HunterGirl. Friday night's Conservation Banquet and Auction features special guest speakers Utah Governor Spencer Cox, and USDA Under Secretary of Robert Bonnie, and Keynote Speaker Clint Romesha, Medal of Honor Recipient. We hope you'll join us Saturday Night for our Grand Finale Banquet and Auction and help celebrate MDF's 35th Anniversary and enjoy a live performance by Ned LeDoux.

While you are here, don't forget to participate in the best deal and greatest opportunity in hunting. In partnership with Utah DWR, we are offering 200 of Utah's best big game tags including, bighorn sheep, desert sheep, mule deer, elk, bison, antelope, black bear, moose and mountain goat. Apply online and then stop by the Utah Tags Room 250 to validate your applications and be included in this one-of-a-kind drawing.

The Western Hunting & Conservation Expo is made possible only by the generous support of our sponsors, exhibitors, donors, members, and guests. Last year, this support resulted in more than \$ 9.7 million raised for conservation. Let's top that this year! On behalf of our collective boards of directors, volunteers, and staff, we thank you for your support, patronage and attendance. Enjoy the Expo!

# AUCTION & PURCHASE ITEMS TERMS & CONDITIONS

The Western Hunting & Conservation Expo (EXPO) is organized to benefit wildlife conservation in conjunction with the Mule Deer Foundation (MDF) and Sportsman for Fish & Wildlife (SFW) by generating funds through the auction of items donated by individuals and companies. SFW and MDF are non-profit charitable organizations organized under section 501(c)(3) of the Internal Revenue Service code.

1. Auction Bidders - Any bid made at an EXPO Auction, whether in person at a live auction, by telephone, or at a silent auction, constitutes an unconditional offer to buy the item in question at the price bid. A person who bids on behalf of another person or group will be ultimately held responsible for payment in its entirety, though such person may seek restitution of such from third parties.

2. Winning Bids - Unless a higher and subsequent bid is made, your bid creates a binding contract of purchase and obligates you to sign the Auction Receipt. In the case of a telephone bid, authorizes your authorized representative who made the bid to sign on your behalf. In the event that the successful bid was made by telephone, the bid price must be received by either MDF or SFW, whoever offered the item for auction, before the close of the fifth business day after the close of the auction.

3. All Sales Final - The auctioneer has the final authority on the amount paid for an item and/or the identity of the purchaser of the item. Auctioneers and spotters will make every attempt to acknowledge all desired bids, but EXPO, SFW and MDF are not responsible for any missed bids or bids that fail to be executed.

4. Auction Receipt - The Auction Receipt will be brought to you or your representative for signature immediately following your winning bid. A binding contract is formed by your bid and formalized by signing of the Auction Receipt. This binding contract requires that the bid amount be paid prior to the close of the auction. Participation in the auction and/or signature on the Auction Receipt, Silent Auction Bid Sheet or other Bid Form guarantees that the purchaser has read and understands these Auction Terms and Conditions and that the purchaser agrees to be legally bound by all terms, conditions, rules and regulations in relation to the auction and the auction item.

5. Full Responsibility of Purchaser - It is the purchaser's responsibility to contact the donor no later than 30 days after the auction regarding purchased items, services or hunts to discuss the scheduling of their hunt or fishing trips. Dates and times for applicable items are to be used when indicated. In the absence of designated dates and times, the same are to be arranged at the mutual convenience of the donor and winning bidder/purchaser. It is the responsibility of the successful bidder, in a proper and timely manner, to apply and pay for all required tags and licenses on any hunting or fishing trip auctioned. EXPO, SFW and MDF is not, and will not act as, a conduit or go between with respect to the purchaser and donor.

6. No Warranties or Guarantee on Goods or Services - All goods, services, hunts or otherwise in the live and silent auctions and fund-raising areas have been acquired for and are to be furnished by or obtained from third parties. The purchaser acknowledges that the goods have not been inspected by EXPO and it is advised

in the case of jewelry, firearms, knives, bullets, and/or other weapons to obtain a competent inspection and test of the goods before use. The goods sold in both the live and silent auctions are sold "As Is" with all faults and defects, and without any express or implied warranty on the part of EXPO, MDF or SFW. EXPO, MDF and SFW do not accept any liability or responsibility for any product, design, or use. Any written warranties on the goods delivered to the high bidder are those solely of the manufacturer, and /or their agents and shall be the sole liability and responsibility of the manufacturer. No services in the live auction are to be or will be performed by EXPO, MDF or SFW. EXPO, MDF and SFW shall bear no responsibilities for the delivery or quality of any of the services, or for any loss or damages arising from or related to or connected with the performance or non-performance of such services.

7. Hold Harmless - There will be no exchanges or refunds on any item. Although EXPO, SFW and MDF have made every effort to ensure the quality of donated hunts and trips, EXPO, SFW and MDF cannot and does not guarantee the satisfaction of either the donor or the purchaser. Purchaser agrees to hold EXPO, SFW and MDF harmless regarding any dissatisfaction or failures by donor to fulfill purchases. EXPO reserves the right to add items to the auctions as additional donations become available.

## 8. LIVE AUCTION PAYMENT SCHEDULES

All auction items, \$10,000 or less, **MUST be paid for by the close of the event where purchased.** Payments will be taken at the Auction Payment Table during the Friday Day Auction, Friday Night Banquet, Friday Ladies Lunch and Auction and Saturday Night Banquet. Payments can be made by cash, check, Visa, MasterCard, Discover and American Express. **A credit card must be on file to hold any item over \$10,000, and cash or check will be expected no later than February 28, 2023.** Arrangements for item pick-up can be made at the time of payment. Any items left in the inventory, either unpaid, or uncollected, will be taken back to EXPO warehouse and shipped at the purchaser's expense. We ask that you pay for State tags with cash or check.

**\*\*A 3% buyer's premium will be added to all State tag items paid for with a credit card. No buyer's premium will be added when paying with cash or check.**

## 9. CLAIMING AUCTION ITEMS PURCHASED

An Auction Runner will bring the sales receipt to the table of the winner for signature immediately upon winning the bid. As mentioned above, the sales receipt formalizes a binding contract made at the time of your bid. The Auction Volunteer Team will be available in each auction to assist you in obtaining your item.

## 10. SPECIAL CONDITIONS REGARDING FIREARMS

Before taking possession of your purchased firearm, the gun must be registered in compliance with all federal, state, and local firearms laws. The procedures for claiming your firearm are as follows:

Step #1: Upon winning/purchasing any firearm you must confirm with your local FFL Dealer to accepting the transfer of the firearm won/purchased and taking possession of the firearm to conduct a 4473 for the winner/purchaser to take possession upon a successful 4473.

Step #2: Mule Deer Foundation (MDF) or Sportsman for Fish & Wildlife (SFW) will ship the firearm to your pre-arranged FFL Dealer with the appropriate paperwork identifying you as the recipient of the firearm and transfer documentation for the FFL Dealer.

Step #3: Your local FFL Dealer will be the point of contact for all firearm related transfers.

# TAKE THE LONG WAY AROUND

## Rev up on the longest ATV trail system in America

The high country of central Utah boasts mountain lakes stocked with trout, aspen forests that turn gold in the fall ... and the most extensive network of ATV and OHV (Off-Highway Vehicle) trails in the nation. The Paiute Trail system is over 900 miles long, with additional 50- and 60-inch side trails in excess of 2,000 miles. Driving the primary trail nonstop takes about 25 glorious hours. But why rush through? Beautiful campgrounds dot the trail, or ride into little towns along the way if the comfort of a real bed and a hot shower is more your style. However you add it up, you'll find an epic off-road adventure in Utah.

Depending on the time of year - you might hunt from swamp buggy, airboats, spot and stalk, or the platform of a high-back-swamp-pickup. The outfitter prides himself on giving the hunter a short, but action packed, and game rich hunt. It is his goal to have clients on gators the first day, first morning...it doesn't always happen that way but so far his clients have had 100% success.

Understated and little known for its world-class Merriam's turkey hunting, Alberta is a must for any serious hunter. Come experience the beauty and variety of game while hunting southern Alberta's Merriam's turkey ... and don't forget to bring your camera!

When most hunters think about trophy antelope, Alberta rarely comes to mind. That makes the province the best kept secret in the antelope hunting world! Alberta represents the extreme northern range of this iconic North American species and thus the body size and trophy quality of the mature bucks tend to compare favorably to specimens found elsewhere. The provincial record of 90" was taken in 2013 and several other entries that exceed the 82" Boone and Crockett minimum have been taken in over the years. Recent successive mild winters have currently resulted in a steady increase in the population and relatively low harvest levels have ensured that there are a good number of mature bucks 6-9 years of age, the optimum ages for trophy quality, on the landscape. Mature bucks start to gather does in mid-July, and by late August are jealously defending their home territories against other bucks intent on supplanting them for their breeding rights. Whether you're a rifle hunter or an archer looking for some fast action decoying, the antelope rut in Alberta is the time to harvest your dream buck of a lifetime!

The purchaser of this license will be authorized to hunt one (1) Pronghorn Antelope anytime between September 1, 2023, and August 31, 2024. This license is valid in Alberta, in any Wildlife Management Unit where a pronghorn hunting season is identified in the 2023 Alberta

A Trip of a Lifetime. Many trips tout this but this one is it. The 1.5 million acre Bob Marshall Wilderness is considered by many to be the crown jewel of America's wilderness system. The breathtaking scenery, wildflowers, and wildlife make for memories that will last a lifetime. On most trips, guests see grizzly bears, black bears, mountain goats, bighorn sheep, elk, moose, mule deer, and even the occasional wolverine. Bring a nice camera!

The Bob Marshall is also a fisherman's paradise with world-class fishing for native cutthroat on the South Fork Flathead River and its tributaries. Alpine lakes, glacial streams, and the main rivers offer a wide opportunity for novice and expert alike. With an abundance of trout lying in wait in the cold, clear waters, it is truly a memorable experience.

Hoyt's new VTM Series Bows are 31% quieter than its Ventum Pro bow. Through riser design refinement, such as moving material and mass to fine tune the design, and improved Hole Shot string silencers (called Holeshot V2), the VTM series bows can be accessorized with the Hoyt In-Line accessory system to become 11% quieter (in addition to the 31% mentioned) and with a 59% reduction in vibration! Other features of Hoyt VTM Series Bows include:

- ✦ Integrate Drop Cord Slot – you will notice a slot machined into the TEC bar so that the Drop Away Cord on the Integrate rest has a direct path to the cable.
- ✦ Garmin Xero trigger wire slot – there is a slot machined on the front of the riser for the trigger wire when using the Garmin Xero sight.
- ✦ Vital Point grip – our most popular grip to date comes standard on the VTM.
- ✦ HBX Pro Cams – The same cams that made the Ventum Pro and RX-7 so smooth are the engine for the VTM series as well. This cam is a game changer, making our bows draw smooth, shoot smooth and quiet, and easy to tune and adjust draw length.

WILD HUNTING SPAIN is donating a PYRENEAN CHAMOIS hunt, a wine-tasting session and a Barcelona city tour, for ONE HUNTER and ONE NON-HUNTER.

Hunting in the Pyrenees is one of the best hunting experiences in Spain. These majestic mountains allow you to experience a real mountain hunt just 1.5 hours from Barcelona.

In this mountain range you will hunt at between 6500 and 8000 feet, a true paradise for lovers of mountain and free range hunts. In this area we can find different species such as the Pyrenean Chamois, Iberian Red Deer, Iberian Mouflon, Fallow Deer, Roe Deer and Wild Boar.

This area is one of the very few places where you can find all these animals in free range. It's a real mountain experience so a minimum level of fitness is recommended.

Furthermore, these mountains are not far from the emblematic Beceite Ibex hunting area, which means it can be easily combined with Chamois if the hunter wishes. (Other Ibex species, Ronda, Gredos and South Eastern can be added.)

Taking advantage of the proximity to Barcelona we will visit this beautiful city, one of the most popular tourist destinations in the world, full of historic buildings, breathtaking architecture and one of the most beautiful Sagrada Familia basilica. Add in the city beaches, Mediterranean views and world-famous gastronomy and you know this is a must-see destination while in Spain. You will also get to know the city with a local English-speaking guide and spend a day like a Barcelonian!

Included is meet and greet at the airport, clearance of guns/gun clearance, transfer from Barcelona to the hunting area, a professional English-speaking guide plus, a PYRENEAN CHAMOIS trophy fee, two hunting day, Barcelona city tour. NOT included are flights to Barcelona, hunting license (\$300/state), dip & pack (\$300/trophy), hotels before or after the hunt, gratuities, personal expenses and 21% VAT on donation value.

There's never been a better time than today to hunt elk in Alberta. Once confined to the mountains and foothills, elk are growing in numbers and expanding their distribution. These days, thriving elk populations can be found from the Peace River valley in the north to central Alberta's parkland and mixedwood forests, to the rolling prairie grasslands of the south. The Minister's Special License (MSL) gives the lucky winning bidder an outstanding opportunity to take an elk that will be the envy of any North American jurisdiction. Consider that in 2020, Shawn O'Shea harvested an Alberta non-typical elk with his bow that scored a mind-boggling 449 ½ inches! Pope and Young has recognized this as the largest bow-harvested non-typical American elk ever taken. Several other Alberta elk, both non-typical and typical, have been harvested that scored in excess of 400 inches—the next could be yours. With recent improvements to the Alberta MSL program, this premier opportunity is not to be missed. Changes to the program include the expansion to year-round hunting and the use of your weapon-of-choice (in compliance with Alberta's provincial hunting regulations.) And you can return as often as you like through the year until you find the elk of your dreams; your Alberta elk hunt will be an experience you'll remember forever.

The purchaser of this license will be authorized to hunt one (1) Elk anytime between September 1, 2023, and August 31, 2024. This license is valid in Alberta, in any Wildlife Management Unit where an elk hunting season is identified in the 2023 Alberta Guide to Hunting Regulations. This license does not authorize hunting in any location where hunting is prohibited as outlined in the Wildlife Regulation and the Alberta Guide to Hunting Regulations. This license does not authorize hunting on Sunday in Wildlife Management Units where the Sunday hunting of big game is prohibited. Funds derived from the sale of this license will be used to supporting Alberta's understanding of its wildlife resources, building up foundational management data through various wildlife inventory efforts.

Conditions: The license cannot be resold or transferred. The buyer can be an Alberta resident, a non-resident, or a non-resident alien. If the license holder is a non-resident or non-resident alien, they will be required to hire a licensed Alberta outfitter and be accompanied by a designated guide. To find an outfitter, the purchaser should visit the APOS website at apos.ab.ca. The cost for hiring the outfitter is not included in the sale price of the license.

Superior African Hunting Safaris is owned by the Van Der Walt family, with Eli van der Walt as head PH. All African outfitters are hardworking men, but somehow Eli seems to take his dedication to create an incredible experience one step further.

In camp, a hunter can expect the complete African experience in a beautiful thatch roof lodge. You will feel the warm embrace of dozens of stories as you look around you at all the stunning pictures and taxidermy. Just ask Eli the story behind each and watch the smile on his face as he recalls the memory.

A hunter will be fully taken care of with an in-house chef who prepares delicious meals three times a day. Snacks will also be served along with plenty of refreshment options after a successful day of hunting.

Hunting with Superior is a comfortable experience, thanks to Eli's dedication to the craft. Your PH at Superior will explain every step you need to take in great detail and encourage you to remain calm, take your time and only squeeze the trigger when you are ready. Considering the quality genetics on this hunting block, even the most dedicated hunters will appreciate this calm manner of hunting. You will not lose the fantastic trophies roaming these grounds!

The Texas Parks and Wildlife Department is proud to announce the donation of one Desert Bighorn Sheep Permit to the Western Hunting and Conservation Expo for auction to the highest bidder at the 2023 EXPO in Salt Lake City, Utah.

Restoration of desert bighorn sheep in Texas has been an ongoing project since the 1950s. Through the cooperative efforts of many conservation partners, including the Mule Deer Foundation, private landowners and Texas Parks and Wildlife Department, we have successfully restored desert bighorns in Texas to the population levels of the late 1800s.

The permit provides the opportunity for one lucky winner to hunt for one desert bighorn ram in the beautiful mountains of West Texas on one of the following State of Texas Wildlife Management Areas: Elephant Mountain, Sierra Diablo, or Black Gap. Based on recent increases in bighorn and permit numbers in Texas, the hunt will most likely occur between September 1, 2023 and July 31, 2024. All hunts are fully guided by TPWD personnel. The hunt will be for 10 days or until a ram is taken, whichever comes first. TPWD will provide lodging, meals and on-site transportation.

The hunter is required to possess a valid Texas hunting license (approximately \$315 for a non-resident). Proceeds from the sale of this permit will go to the Texas Parks and Wildlife Department's Desert Bighorn Sheep Program and used exclusively for desert bighorn restoration and management in Texas. Proceeds from past hunts have paid for the restoration of desert bighorns into sheep habitat which has been void of bighorns for over 50 years. Your support is very much appreciated!

Alberta is a mule deer hunter's paradise! This Minister's Special License (MSL) gives the lucky winning bidder a world-class opportunity to take the trophy of a lifetime. In many parts of North America, mule deer numbers are in decline, but Alberta's populations are thriving. From the vast northern croplands of the famed 'Peace Country' to the rolling grassland and coulee habitats of southern Alberta, few places offer more diversity and opportunity to harvest a monster mule deer.

Alberta's genetics are among the very best in the world. In fact, the largest mule deer ever taken, hit the snow-covered ground right here in Alberta, the "Ed Broder Buck" which scored 355 2/8-inches B&C! Annually many giant deer are still being taken in Alberta by hunters, scoring well over 200-inches – so who knows what possibilities await you with the MSL. With recent improvements to the Alberta MSL, this premier opportunity has now risen to the top of the heap for auction tags across North America. Two of the key changes include the expansion to year-round hunting, and weapon-of-choice (in compliance with Alberta's provincial hunting regulations). Whether the holder of this permit comes once, or multiple times, they are certain to enjoy the hunt of a lifetime. Don't miss this unique opportunity to pursue a true Alberta giant in the name of conservation.

The purchaser of this license will be authorized to hunt one (1) mule deer anytime between September 1, 2023, and August 31, 2024. This license is valid in Alberta, in any Wildlife Management Unit where a mule deer hunting season is identified in the 2023 Alberta Guide to Hunting Regulations. This license does not authorize hunting in any location where hunting is prohibited as outlined in the Wildlife Regulation and the Alberta Guide to Hunting Regulations. This license does not authorize hunting on Sunday in Wildlife Management Units where the Sunday hunting of big game is prohibited. Funds derived from the sale of this license will be used to supporting Alberta's understanding of its wildlife resources, building up foundational management data through various wildlife inventory efforts.

Conditions: The license cannot be resold or transferred. The buyer can be an Alberta resident, a non-resident, or non-resident alien. If the license holder is a non-resident or non-resident alien, they will be required to hire a licensed Alberta outfitter and be accompanied by a designated guide. To find an outfitter, the purchaser should visit the APOS website at apos.ab.ca. The cost for hiring the outfitter is not included in the sale price of the license.
